About Mylan

Mylan is a global pharmaceutical company committed to setting new standards in healthcare and providing 7 billion people access to high quality medicine. We offer a growing portfolio of more than 7,500 products, including prescription generic, branded generic and brand-name drugs and over-the-counter (OTC) remedies. We market our products in more than 165 countries and territories. Every member of our approximately 35,000-strong workforce is dedicated to creating better health for a better world.

Mylan's mission is grounded in our belief that every person matters and should have the opportunity to live the healthiest life possible. We've built our business model consistent with this belief. Through it, we are impacting people around the world with each passing year. In 2017, for instance, **the selling price of our medicines, on average, was just 17 cents per dose.**

Further, we recognize that through our work, we can help advance society's broader goals. We therefore appreciate the importance of considering the needs of future generations and promoting development that protects and serves their interests. This understanding informs Mylan's vision for global social responsibility. It also motivates us to make sustainability – in the broadest sense – a priority in everything we do.
