▼ CORPORATE PROFILE

Mylan is one of the world's leading generics and specialty pharmaceutical companies, providing products to customers in more than 150 countries and territories. The company maintains one of the industry's broadest and highest quality product portfolios, which is regularly bolstered by an innovative and robust product pipeline. With a workforce of more than 18,000, Mylan has attained leading positions in key international markets through its wide array of dosage forms and delivery systems, significant manufacturing capacity, global commercial scale and a committed focus on quality and customer service. The company ranks among the top five generics companies in several international markets and is the largest U.S.-based generics manufacturer in the world.

Through its subsidiary Matrix Laboratories, Mylan has direct access to one of the world's largest active pharmaceutical ingredient (API) manufacturers. This relationship makes Mylan one of only two global generics companies with a comprehensive, vertically integrated supply chain. Matrix also is one of the world's largest producers of API used to make generic antiretroviral (ARV) therapies for the treatment of HIV/AIDS.

Additionally, Mylan operates a fully integrated specialty pharmaceutical business, Dey Pharma, which produces innovative medicinal therapies, including EpiPen[®] Auto-Injector and Performist[®] Inhalation Solution.

▼ OUR MISSION

As a leading provider of generic and specialty pharmaceuticals, Mylan maintains one of the industry's largest commercial footprints and a network that spans the globe. Operating this network seamlessly – across all of our businesses – is our highest priority. Our scope and depth enable us to offer our customers a comprehensive portfolio of innovative and affordable quality products backed by the industry's highest standards for service, delivery and reliability. Because at Mylan, anything less isn't good enough.

▼ OUR VISION

We aspire to relentlessly improve product innovation, customer service and global operational excellence to ensure Mylan's position as one of the world's leading providers of generic and specialty pharmaceuticals. We will continue to address patients' unmet needs and provide them with access to our products virtually anywhere in the world. Because of this unwavering commitment, we believe we can unlock additional value for patients, customers, shareholders and our employees, without compromising the integrity of our enterprise, and become the most efficient global generics and specialty pharmaceutical company in the industry.

Delivering good health

Around the corner and across the world

GLOBAL MARKET LEADERSHIP

Mylan enjoys leadership positions in several markets.

- No. 1** Australia, France and New Zealand
- No. 2** Italy and U.S.
- Top 5** Belgium, Canada, the Netherlands, Portugal, Sweden and the U.K.

IMS Health/Mylan management estimates

Mylan organizes its commercial operations around its global generics business and its specialty business, Dey. Mylan further organizes its generics business by geographic regions: North America; Europe, the Middle East and Africa; and Asia Pacific.

Through the acquisitions and successful integration of Matrix and the former Merck Generics business, Mylan has transformed itself from the third largest generics pharmaceutical company in the U.S. to the third largest generics and specialty pharmaceutical company in the world.

As a result, Mylan now has the scale and resources needed for ongoing success, such as a global commercial footprint, an extensive product portfolio, deep research and development capabilities, expanded manufacturing capacity, and operations that are integrated vertically and horizontally.

Mylan's employees now are leveraging these assets to achieve the company's next major goal: becoming the industry's most efficient company.

Mylan serves customers in more than 150 countries and territories through its global network of manufacturing sites, research and development facilities, and sales and administrative offices – many of which are shown here.

Our Values Define Our Culture

Innovation

We are unconventional, visionary and bold. We “connect the dots” others overlook. We see possibilities and bring them to life. We love to challenge the status quo and introduce new and better ways to help people everywhere enjoy a higher quality of life. Having the courage to be a force for constructive change is in our DNA.

Integrity

Doing what's right is sacred to us. We behave responsibly, even when nobody's looking. We set high standards from which we never back down. This uncompromising ethical stance helps to keep our products pure, our workers safe and the environment clean.

Reliability

Dependable. Reliable. Call it what you will, we've made it a habit. We strive to be there through thick and thin, rain or shine, delivering on every promise, every time. That's why people around the corner and across the world count on Mylan.

Service

We understand that “it's not about us” – it's about helping others – and we believe there's no situation we can't handle. We would do whatever it takes, work 'round the clock, cross any river and spare no effort – all to meet someone's need. We wrap our high quality products in high quality service.

Teamwork

Together, we can run faster, reach higher and achieve more than any one of us can alone. We relish opportunities to collaborate because it's invigorating, enlightening and powerful. When we join forces and plow through boundaries, we move mountains.
