Mylan Institutional is a customer-focused business providing a differentiated basket of pharmaceutical products and services to institutional customers, which include group purchasing organizations, wholesalers, hospitals, surgical and radiology services, home infusion service providers, long-term care facilities, correctional facilities, specialty pharmacies, veterinary clinics and retail outlets.

Mylan Institutional's product offering includes 57 injectable products and 483 SKUs in unit dose, unit-of-use, automation-ready package formats, and compliance package formats.

Mylan Institutional provides a broad range and reliable supply of high quality, difficult-to-formulate or difficult-to-manufacture injectable products, as well as, product packaging innovations that help reduce dispensing errors, increase efficiency, and improve patient care. Together, Mylan Institutional delivers one powerful and customer-centric offering to the institutional health care market.

Mylan Institutional is part of Mylan (Nasdaq: MYL), a Fortune 500 company and one of the world's leading generic and specialty pharmaceuticals companies, providing products to customers in more than 150 countries and territories.

## See inside.

Discover why, at Mylan, quality isn't just a claim – it's a cause we've made personal.
