## Overview

Mylan Institutional is a new customer-focused business providing a differentiated basket of pharmaceutical products and services to institutional customers, which include group purchasing organizations, wholesalers, hospitals, surgical and radiology services, home infusion service providers, long-term care facilities, correctional facilities, specialty pharmacies, veterinary clinics and retail outlets.

Mylan Institutional's product offering combines the specialty injectables of Bioniche Pharma with the leading unit dose capabilities of UDL Laboratories. The offering includes 42 injectable products and 450 SKUs in unit dose, unit-of-use and automation-ready package formats.

Bioniche Pharma provides a broad range and reliable supply of high quality, difficult-to-formulate or difficult-to-manufacture injectable products. UDL brings product packaging innovations that help reduce dispensing errors, increase efficiency and improve patient care. Together, Bioniche Pharma and UDL – as Mylan Institutional – form one powerful and customer-centric offering to the institutional health care market.

Mylan Institutional is part of Mylan (Nasdaq: MYL), a Fortune 500 company and one of the world's leading generic and specialty pharmaceuticals companies, providing products to customers in more than 140 countries and territories.

- ▶ U.S. market leader in unit dose packaging
- ▶ Well-recognized burn- and wound-care brands
- ▶ Innovative solutions that help ensure patient safety and reduce medication errors
- ▶ Space-saving packaging designs
- ▶ Bar coding expertise
- ▶ Early adopters of Global Trade Item Numbers
- ▶ Corporate headquarters located in Rockford, Ill., with operations in Sugar Land, Texas
